

Live on earth is quite meaningless. All this running about, getting important, finding a place for infinity. Why? Together with [Jan Vindevogel](#) , and with the kind support of Guy Van den Storme, Music for Installations will display works in

Oudenaarde

, Belgium at the

Gevaertsdreef 1

. The exhibition will contain new visual artworks from Jan and soundworks from Music for Installations. Both will be presented on

Friday 9th May at 20.00

at a very atmospheric location. There will be drinks and food available to help you prepare your mind getting ready for artistic consumption. The soundworks will be displayed on different locations within the building and there will be a live-moment with the presentation of soundscapes.

The displayed soundworks will be inspired on the [Dark Side cycle](#) and the live session at the [Museum of Fine Arts in Ghent](#)

. Music for Installations also provided some tracks for a video-work where Jan is working on. All welcome to dive in.
